You can find this information and much more in our webpage: [FXGlobe.com - Security of Funds - Deposit Conditions](#)

Deposit conditions.

There are a couple of important things to note before you make your first deposit.

- 1** We do not accept payments from third parties. Please ensure that all deposits into your trading account come from a bank account or card in your name. Payments from joint bank accounts and cards are accepted if the trading account holder is one of the parties named on the joint bank account or card.
- 2** The first time you fund your account, please deposit a minimum of \$250 or equivalent.
- 3** If you are depositing funds in a different currency than the base currency of your trading account, the transfer amount will be converted into your account's base currency at the market prevailing exchange rate.
